Accordingly the company has accounted for the amalgamation as per Accounting Standard 14 - Accounting for Amalgamation as stated in the Companies (Accounting Standard) Rules 2006 under the purchase method. Had this treatment not been presented in the scheme, the said reserve would have been Capital reserve The above financial statements include the transactions of the erstwhile ATSL which has been accounted for in the last quarter of the financial year after the receipt of the Courts order and the necessary filings to make the scheme effective. The figures for the current year and the last quarter ended 31st March 2009 are therefore not comparable with those of the previous year.
